

BARE MOUNTAIN ROAR

August 2020

From the President:

While in many ways this season on Bare Mountain is like no other before it, in one important way some things have not changed at all. Our various Committees, their Chairpersons and all of those members supporting them have continued with their work this year and have already accomplished so much. And for that, I think we can all be so grateful.

Kathy and Crew have been so thoughtful and creative in finding ways to make our activities happen in the safest way possible.

In spite of the Visitor restrictions, Chuck has helped add a number of new members this year, and we welcome those new friends.

Not surprisingly, the Land Committee has been super-efficient in already checking off the completion of most of the projects on the Master Plan for this year, including a beautiful new deck at the clubhouse. A big thank you to Ken H, Jim L and Jay J and all those others for their efforts with these projects. And another big thank you again to Pat T for his electrical help, this year on Lot 41.

Cherie has added a great new look to the newsletter and continues to see that our members have all of the latest news, activities and club information.

Albert P has completely changed the website this year and it has a great new look. And the member's only information is now up to date.

Jay J continues to spread the word that Bare Mountain without a doubt is the best place to be in the 'Nudeiverse'.

Charles and the Long Term Committee continue to work on the future look possible at Bare Mountain and this year their work has brought us the likely prospect for potable water at the clubhouse.

Alan A has several Legislative projects in process that members may soon be able to add their comments for consideration.

Kathy M has a strong start on the Emergency Preparedness Committee. They have already cleared the nearby Helipad and are working on further improvements.

Gary L along with Ed W and all of the Adopt-a Trail volunteers have the trail system looking the best ever! What a great example of our 'worker bees' rising to the challenge.

So again, a big thank you for all the effort you give to make our club so great.

Ron W

1pm Tournament begins

5:30pm Pizza will start serving

Cost will be \$5.00 per person

Sept 5th Ron's Ribs - Details to come.

Any questions, please contact Kathy H @ mrs.twister62@gmail.com

Land

Wow another great job - all the big tree left overs are all gone to the neighbors. I would like to thank Jim L, Jay J, Joan, Brent, and Alan for all the tiring effort to get this done.

Please make sure your current license is up to date on your trailer. I will be checking all trailer licenses first week of August.

After hearing from members I would list to start a list of land items that need to be fixed but not on the Master Plan. Please email to fonzie986@gmail.com so I can get a list together to add to the Roar each month.

Ken H (fonzie986@gmail.com)

Reminder, as discussed in the General meeting, if you would like to run for any position on the board, please let Brent (mr.twister58@gmail.com) know. If you like to know what the position is all about, please feel free to ask anyone on the Board. Cherie will need your write up by August 25 to include in the Roar.

Trails

Great addition to the Trail – where or where is it?

From the Author of the “Bare Mountain Volleyball Rules” comes the
”Top 10 Reasons Nude Lives Matter”

10. We give dermatologists needed work (insert tongue in cheek now)
9. We prevent water pollution by doing less laundry
8. We help preserve the ozone layer by drying less laundry
7. We help ensure vitamin D is not wasted
6. We help reduce the international trade deficit by buying less foreign made clothing
5. We ensure profit for manufacturers of sun screen
4. We are loved by the terry cloth lobby
3. We support Adam and Eve’s dress code (don’t eat the apple salad)
2. We rage against the textile industrial complex
1. We support the right of everyone to bare more than arms

Thank you Alan for the pictures of “Old electric service, new electric service, how far we have come.” Which one is old???? Which one is new?
